

Institute for Inclusive Finance and Development (InM)

Serial	Item	Description	
1	Title:	Innovative Solutions to Sustaining Access to Safe Drinking Water for the Poor in the Saline-prone Coastal Belt: A Critical Review of LIFT Initiative of PKSF	
2	Institution and rights:	Institute for Inclusive Finance and Development (InM)	
3	Period of Data collection :	31 July-13 August 2017	
4	Sample size:	FGDs/KIIs were conducted in 9 major saline prone unions from 3 purposively selected districts (Khulna, Satkhira and Bagerhat) to examine the water supply performance in the salinity prone areas for the 20 reverse osmosis based desalination plants through PKSF's 12 POs.	
5	Indicators:		
		Sources of drinking water	Current and alternate sources of drinking water
			Who motivated you to drink plant water?
			Is the amount of water collected from the plant adequate for your family?
		Seasonality	Identify the crisis months for drinking water (according to severity of crisis)
			How do you meet the drinking water demand of your family during the crisis period?
		Water collection procedure	How do you collect water?
			Who in the family has the responsibility to collect water?
			Do you find it troublesome to collect water?
		Water reservation procedure	How do you reserve the water you collect?
			Do you find it troublesome to reserve water?
		Uses of water	Do you use the water for any other purpose than drinking?
			Are you willing to use the plant water for other purposes than drinking?
		Pricing issues	Do you think the current price is justified considering the benefit it offers?
			How much you have to pay now per litre?
		Health issues	How about the prevalence of water borne diseases like diarrhoea, dysentery, shigellosis, skin disease etc.
			Why do you think it is beneficial for your health?

		Willingness to pay	What is the maximum price you would like to pay per litre?
		Problems	Do you feel any problem to drink plant water?
			Is there any family/social problem to collect plant water?
			Reasons for non-use of facilities by nonusers
		Suggestions	Do you think that everyone should use plant water for drinking?
			Do you have any suggestions on payment for collecting plant water?
			What benefits should be offered if plant water is promoted to you?
6	File:	Final report, FGD/KIIs/Case study
